Get ahead by knowing what is happening in the world of economics.

Consume the news every day – TV, online, podcasts or even newspapers.

Economics is a genuinely fascinating subject but students only succeed if they can link the theory to real life. You must know what is going on out there.

Here are some recommended books for summer holiday reading:

1. **Almighty Dollar** (Dharshini David) – follows the journey of a single \$ to show how the global economy works
2. **Choice Factory** (Richard Shotton) – a story of 25 behavioural biases that influence what we buy
3. **Doughnut Economics** (Kate Raworth) – challenges much of orthodox thinking in the subject
4. **Economics for the Common Good** (Jean Tirole) – applied micro from a recent Nobel prize winner
5. **Inequality** (Anthony Atkinson) – a superb book on one of the defining economic/political issues of the age
